Bishoy Tawfik

Frontend Developer (React Developer) at NasNav

Summary

I'm a 3+ years experienced front-end developer, with a background in programming since 2008.

Knocking every door with a goal of gaining knowledge and experience.

Hope to find my way to be the best developer I can be.

Seeking new challenges and opportunities to build myself.

I have two passions my family and the programming.

I'm trying always to find solutions through programming to any problem I had.

I hope to find the right place to reach my full potential.
